PROFESSIONAL SUMMARY

Highly motivated Computer Science graduate with a strong foundation in Java, C++, C, .NET, Data Structures & Algorithms, and Web Development. Skilled in developing scalable software applications, optimizing relational databases with MySQL, and building user-friendly front-end web tools. Seeking an entry-level Software Engineer role to deliver efficient code and contribute to real-world software solutions.

WORK EXPERIENCE

.NET Developer, Tech Extensor Pvt. Ltd.

Jan 2026 – Jul 2026

- Developed and maintained ASP.NET Core Web API applications and collaborated on enterprise-level projects using C#, SQL Server, and REST APIs.
- Worked with stored procedures, database integration, bug fixing, and feature enhancements while following clean coding practices and Git-based version control.
- Collaborated with team members to analyze requirements, troubleshoot issues, and deliver assigned tasks within project timelines.
- Contributed to full-stack development by working with Angular/Blazor, integrating frontend components with backend APIs.

Python Developer Intern, AICTE Internship

Recent

- Designed and built an AI-powered Resume Ranking System using Python and Natural Language Processing (NLP) techniques.
- Implemented automated relevance scoring to evaluate candidate resumes against job descriptions, improving screening efficiency.
- Enabled automated batch processing for multiple documents, significantly reducing manual screening time.

TECHNICAL PROJECTS

Finora - Personal Expense Manager

Self Project

Tech: ASP.NET Core Web API, SQL Server, Angular

- Developed Finora using ASP.NET Core Web API, Angular, and SQL Server following layered architecture.
- Implemented secured JWT-based authentication and role-based authorization, along with CRUD operations for expense, category, and user management.
- Added functionality for users to download and export expense data.
- Repository: github.com/Namangupta119/Finora

Car Rental Platform

Academic Project

Tech: React.js, Node.js

- Collaborated in a team environment to create a platform enabling users to browse, search, and book rental vehicles.
- Implemented secure user authentication and an admin dashboard for vehicle management, booking tracking, and CRUD operations.

TECHNICAL SKILLS

Languages	Java (J2SE), C, C++, C#, .NET, SQL
Web Technologies	HTML5, CSS3, JavaScript (ES6+)
Databases & Tools	MySQL, Git, GitHub, VS Code
Core CS	Data Structures & Algorithms, OOP, RDBMS, Operating Systems, Computer Networks

EDUCATION

B.Tech in CSE	Bansal Institute of Science and Technology, Bhopal	CGPA: 8.18
Class XII (Higher Secondary)	DAV Gyanodaya Vidya Mandir, Damoh	66.8%
Class X (Secondary)	Gyanodaya Vidya Mandir, Damoh	70.2%

CERTIFICATIONS & LANGUAGES

Certifications	Java Basic (HackerRank), JavaScript Essentials 1 (Cisco Networking Academy)
Languages	English (Professional Working), Hindi (Native)
